

What Society Teaches about Marriage:

(read top to bottom)

Modern day marriages don't last
That is why
You should only look out for #1
It is foolish to think
You can live happily ever after
By giving your all
To build up your man
Take whatever measures are necessary
To maintain your autonomy
Don't worry about trying
To give 110%
Always remember instead
That marriage is a 50-50 proposition
Don't think for a minute
Your husband will respond in kind
If you treat him with respect
That's a lie
Being a submissive wife makes you a doormat
I don't believe
Marriage is worth the sacrifice
